Collected: 24/12/2021 09:56
Received: 24/12/2021 10:15
Ordered Tests: **Covid-19 (RT-PCR)**
Specimen: Nasopharyngeal

Guarantor: Simone Thandi Taruvunga
Tel No: +27848067672

Status: Final

PCR

TEST	RESULT	FLAG	REFERENCE	UNIT
SARS-CoV-2 (COVID-19) PCR	Negative			

GENERAL COMMENTS:

1. Due to the nature of the test, sample collection, storage and transportation will have an impact on the result.
2. The test is a molecular-based assay (PCR). False positives and negatives may occur for various reasons.

Interpretation of a NEGATIVE result:

A NEGATIVE result means that SARS-CoV-2 (COVID-19) was not detected. Negative results do not necessarily exclude infection with SARS-CoV-2 (COVID-19) and should not be the sole basis of a patient management decision. Retesting is advised if clinically indicated.

Interpretation of a POSITIVE result:

A POSITIVE result indicates the presence of SARS-CoV-2 (COVID-19). Patients are advised to contact their doctor immediately for clinical guidance and management. Self isolation is necessary for at least 14 days unless hospitalization is required. It is further recommended that all close contacts also undergo testing for SARS-CoV-2 (COVID-19).

Completed: 24/12/2021 20:27
